

## Baby and Beyond

Baby and Beyond provides education, support and early identification of risks to help expectant mothers achieve a full-term pregnancy.

The Maternity Care Coordinator (OB/GYN Registered Nurse) works with your healthcare provider to:

- Provide support to maximize your medical care
- Help you understand and comply with treatment plans
- Offer assistance with resources and special services when requested
- Answer questions about your pregnancy

Expectant mothers don't just face physical changes. That's why we also provide emotional support with regular contact throughout your pregnancy. Your coordinator is just a phone call away to answer questions and listen to your concerns during regular business hours Monday-Friday 8:00am-4:30pm. Educational materials are provided for expectant mothers and their significant others.

Members may seek help to manage such common issues as:

- PIH or Pregnancy Induced Hypertension
- Gestational diabetes
- Kidney disorders
- Preterm issues (spontaneous delivery before 35 weeks)
- Tobacco use
- Postpartum depression

Baby and Beyond is a Community Health Partners medical services solution that can benefit your employees and your bottom line. For more information, call 239.659.7770.
