

## Instructions on How to Open Encrypted Emails

- Go to your email inbox
- Open email (will look similar to below image)

- Click Open Message
  - If you have never registered you will have to create a password, then click Register
  - If you have previously registered, you will need to enter the password you used to create the account, then click Sign in
- You can now view the message

\*If you forget your password, click Reset in the Forgot your password box, follow on-screen instructions
